

REMARKS

This amendment is believed to be fully responsive to the examiner's office action. It is requested that matters as to form that have not been addressed in this response be held in abeyance until allowable subject matter is indicated. Reconsideration, further examination, entry of the above amendments, and allowance is respectfully requested in view of the above amendments which address the points in the Examiner's as follows:

Election/Restriction

The applicant hereby confirms the election of the election of the invention recited in claims 1-4, 7-9 and 12-14 without traverse. Accordingly, claims 5, 6, 10, 11, 15, and 16 are cancelled from this application.

Drawings

The reference character 70 had been inadvertently associated with an arrow showing horizontal adjustment of one of the legs 60 of the tool. The correction illustrates the adjustment of the position of the angle gage surface relative to the legs 60. A corrected drawing sheet is being submitted herewith for the examiner's approval.

Claim Rejections -35 U.S.C. § 112

The examiner rejected claims 1, 4, 7-9 and 12-16 as being indefinite, arguing that the tool as claimed includes only one leading end and one trailing end. It is submitted that the above claims describe an operable device. The user would simply have to set or adjust one wheel at a time. Thus it is submitted that further restriction by claiming all of the structure requested by the examiner would unfairly limit the claims. Nothing in the art of record shows this structure, and thus the applicant is entitled to this claimed language.

Accordingly, it is submitted that the claimed invention is not unclear, and that the pending claims are in condition for allowance.

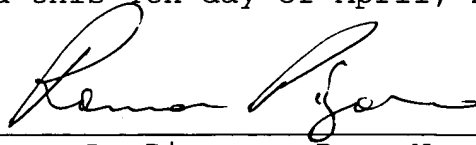

CONCLUSION

In view of the above, it is submitted that the applicant has placed this application in condition for allowance. Further examination, abeyance of any remaining informalities, and reconsideration and withdrawal of the rejections and objections raised in the Examiner's Office Action is requested. Moreover, it is submitted that the claims are now in condition for allowance, and that allowance of the present application is in order and is also requested.

Should the Examiner deem that any further amendment is

desirable to place this application in condition for allowance,
the examiner is invited to telephone the undersigned at the
number listed below.

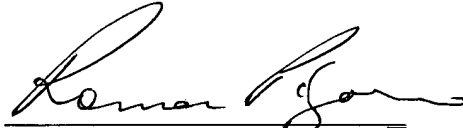

Respectfully submitted this 4th day of April, 2003,
